

USB to Fast Ethernet Adapter

Model
501262

The INTELLINET NETWORK SOLUTIONS™ USB to Fast Ethernet Adapter is a compact, high-performance network adapter that allows your desktop or notebook computer to connect to 10/100 Mbps networks. Because it attaches to one of your computer's USB connectors, there is no need to open up your PC — and the user-friendly setup software makes installation quick and easy.

Auto-Speed Detection 10/100 Mbps

The USB to Fast Ethernet Adapter allows you to attach USB 1.1-equipped computers to networks running at 10/100 Mbps speeds.

Auto Negotiation

The USB to Fast Ethernet Adapter will automatically detect the network speed that the LAN switch port is set to and run at the same speed. The adapter supports 10Base-T Ethernet and 100Base-TX Fast Ethernet.

Full Duplex

When running in full duplex mode, the USB to Fast Ethernet Adapter connects at the following link speeds: 20 Mbps (10Base-T Ethernet) and 200 Mbps (100Base-TX Fast Ethernet).

Portable Design

The USB to Fast Ethernet Adapter is compact, and can be easily used from one computer to another, or transferred in your notebook case as you travel. It doesn't take up a lot of space, and does not add clutter to your workspace.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all INTELLINET NETWORK SOLUTIONS products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
